

WHAT IS LAING MEDICAL-LEGAL CONSULTING (LMLC)?

LMLC is an independent legal nurse consulting practice operated out of Ohio, but serving nationwide to attorneys, insurance companies, and health care facilities. LMLC is owned and operated by Dawn D. Laing, RN, CCRN, CLNC, Certified Legal Nurse Consultant.

WHAT IS A CERTIFIED LEGAL NURSE CONSULTANT (CLNC)?

A CLNC is a registered nurse who has been professionally trained by the company that pioneered the field of legal nurse consulting. Every medical record is hindered with mind-numbing bits of information. The CLNC has unique skills to untangle the crucial facts to help you win cases. The CLNC quickly pinpoints and interprets medical and nursing issues in any case involving health, illness, or injury.

WHY DO ATTORNEYS NEED CLNC'S?

While the attorney is the legal expert, the CLNC is the expert on the health care system and its inner workings. Nowhere else will you find this level of cost-effective expertise for reviewing medical records and understanding the terminology and subtleties of health care.

WHEN SHOULD YOU CALL A CLNC?

From the moment a potential case comes in, the CLNC becomes an invaluable asset by identifying the medical issues, screening the case for merit, and transforming the huge volumes of complex medical data from chaos to clarity.

WHY SHOULD YOU CONSULT WITH A CLNC IF YOU'RE ALREADY USING AN MD?

The services of a CLNC are far more cost effective than those of a physician. As a health care provider who is face-to-face with the patient everyday, the CLNC can educate about a wide range of medical issues. This knowledge saves you time and money when working with expensive medical experts.

WHY SETTLE FOR LESS WHEN YOU CAN SETTLE FOR MORE

Regardless of your specialty, whether plaintiff or defense, your profits escalate when we are on your team. Dawn, is your private duty RN, working with you to build the best case possible. LMLC can do it faster and more cost-effectively. Call whenever your case load involves:

- Nursing or medical malpractice.
- Wrongful death.
- General personal injury.
- Toxic torts or environmental cases.
- Product liability.
- Medicare reimbursement liability settlements.
- Criminal cases involving medical issues.
- Any case involving medical or nursing issues such as probate, Medicare fraud, workers' compensation, or elder care.
- Any case where health, illness, or injury is an issue.

My Personal Commitment

"I am Dawn D. Laing, RN, CCRN, CLNC, the founder of Laing Medical-Legal Consulting. With over 16 years of professional nursing experience as a float RN, I continue to serve in telemetry, interventional cardiology, surgical cardiology, electrophysiology, general medical-surgical, neurology, spinal surgery, orthopedics, pain management, ICU/CCU step-down, trauma, and home care.

I hold memberships in the Columbus Bar Association, The American Association of Nurse Attorneys, and in multiple Nursing associations. Due to my vast nursing background, I can quickly decipher complicated medical records, regardless of the specialty. Whether consulting for plaintiff or defense, I offer both angles in presentations giving you a clear picture of - what DID happen, what DID NOT happen, and what SHOULD have happened!

You have my promise to be a vital member on your team providing support from start to finish on each and every case. My personal attention assures you that I am the best choice for your litigation team. Whenever you need me, I am here!"

HAVE YOU EVER SAID:

"I wish I could be a little bug on the wall in the patient's room?"

Dawn Laing, RN, CCRN, CLNC, is that little bug!
Her eyes are decoding the medical records,
figuring out the true events.

DAWN HOLDS THE KEY TO THE WINNING COMBINATION

Your legal expertise and our medical expertise equal **MONEY!** At LMLC we are familiar with the inner workings of the hospitals and health care system allowing us to easily sift through complicated records. We free up your time to take on more cases. These case winning services include:

- Screen cases to eliminate the expense of nonmeritorious lawsuits.
- Review and analyze medical records, hospital policies and procedures, and other documents.
- Formulate chronologies, timelines and medical summaries (brief, moderate, or comprehensive) to highlight significant events.
- Identify and locate expert witnesses.
- Research and apply authoritative medical and nursing literature.
- Decipher unintelligible medical records.

Just as vital, we save you **MONEY** by pointing out cases you do not have to send to a **COSTLY MD.**
